

# Current Trends in Forensic Trace Analysis

**When: July 26th – July 30th, 2021 from 8:45am – 12pm ET**

Now in its 4th year, this On-line Symposium has gained a reputation for creating a sense of community for forensic practitioners across the globe while disseminating timely and impactful information from recognized experts in their respective discipline – a feat accomplished with no registration fee and no travel costs.

This year's Forensic Trace Analysis Symposium features Keynote Speaker, Dr. Itiel Dror, from the University College London presenting on "*The Role of the Three E's in Decision Making: Expertise, Expectation, and Experience.*" That presentation will be followed by sessions on:

- The role of human factors in decision making, interpretation, and efficiency
- Current trends in gunshot residue analysis
- Analysis and interpretation of fire debris and explosives
- Current trends in fiber examinations
- The role of collaborative studies in advancing trace evidence
