- Application in for CLIC membership as well – not yet approved

Why do you want to serve on the SAFS Board of Directors?

I would like to be on the SAFS Board of Directors because I have thoroughly enjoyed being a part of SAFS and meeting/networking with so many wonderful people. I have a passion for leadership and event planning and would really like to get more involved in that capacity with SAFS. This is a great opportunity to get my foot in the door to start giving back to the organization and its members!
